

Transocean Ltd. Provides Quarterly Fleet Status Report

July 25, 2017

ZUG, Switzerland, July 25, 2017 (GLOBE NEWSWIRE) -- Transocean Ltd. (NYSE:RIG) today issued a quarterly Fleet Status Report that provides the current status of and contract information for the company's fleet of offshore drilling rigs. As of July 25, 2017, the company's contract backlog is \$10.2 billion.

The ultra-deepwater semisubmersible *GSF Development Driller I* was awarded a three-well contract plus two one-well options offshore Australia. Following a cold-stacked reactivation and mobilization, the floater is expected to commence operations in the first quarter of 2018.

The report also includes the following:

- *Deepwater Asgard* – Awarded a two-well contract in the U.S. Gulf of Mexico. The ultra-deepwater drillship was previously idle.
- *Development Driller III* – Awarded a two-well contract. The ultra-deepwater semisubmersible was previously idle.
- *Dhirubhai Deepwater KG2* – Customer exercised two one-well options offshore Myanmar.
- *Paul B. Loyd, Jr.* – Customer exercised a one-well option in the U. K. North Sea.
- *Transocean Arctic* – Customer exercised three one-well options in the Norwegian North Sea.
- The midwater floaters *Transocean Prospect* and *Transocean Searcher* were classified as held for sale. The rigs will be recycled in an environmentally responsible manner.

The report can be accessed on the company's website: www.deepwater.com.

About Transocean

Transocean is a leading international provider of offshore contract drilling services for oil and gas wells. The company specializes in technically demanding sectors of the global offshore drilling business with a particular focus on deepwater and harsh environment drilling services, and believes that it operates one of the most versatile offshore drilling fleets in the world.

Transocean owns or has partial ownership interests in, and operates a fleet of 44 mobile offshore drilling units consisting of 30 ultra-deepwater floaters, seven harsh environment floaters, three deepwater floaters and four midwater floaters. Additionally, the company has four ultra-deepwater drillships under construction or under contract to be constructed. Also, the company operates two high-specification jackups that were under drilling contracts when the rigs were sold, and the company will continue to operate these jackups until completion or novation of the drilling contracts.
