Dear Transocean Shareholder:

Your company's Annual General Meeting is less than a month away, and it is critical that your shares are represented. While there are a number of important items on the agenda, we ask you to consider the Board's recommendations on three proposals in particular and to vote:

- **FOR** our proposed dividend of \$2.24 per share (**Proposal 3B1**);
- **FOR** the readoption of authorized share capital (**Proposal 4**); and
- **FOR** the five highly qualified Transocean director nominees (**Proposal 6A-6E**).

We would appreciate your taking a moment to review the considerations detailed below. Then, **please sign, date and return the enclosed WHITE proxy card today voting in support of your Board's recommendations.**

**KEY REASONS TO VOTE FOR YOUR BOARD'S RECOMMENDATIONS
ON THE WHITE PROXY CARD TODAY**

The Board's Proposed \$2.24 per share Dividend. We are seeking your **vote FOR the company's proposed \$2.24 per share dividend**, which we believe represents a robust, but responsible, return of capital to shareholders while permitting investment in growth and maintenance of the strength of the Company's balance sheet. This proposed dividend represents one of the industry's highest implied payout ratios and dividend yields. In the context of a cyclical and capital-intensive industry, the unique uncertainties associated with the remaining litigation faced by the company dictate that **Transocean must maintain a prudent level of financial flexibility**. We believe that the competing dividend proposal of Carl Icahn is unrealistic, ill-conceived and inappropriate as it fails to recognize these important facts.

In the future, increases in Transocean's annual distributions may be appropriate once litigation uncertainties are further resolved. However, at this time, Transocean's Board firmly believes that distributing additional capital to shareholders beyond the proposed \$2.24 per share dividend would lead to a deterioration of the company's balance sheet and is also likely to result in the loss of the investment grade rating on the company's debt. Among other things, the loss of an investment grade rating would severely limit the company's access to reliable sources of capital and increase our cost of debt financing for an extended period of time. Simply stated, we believe Mr. Icahn's proposal would have a real and profoundly harmful impact on the company's ability to create long-term shareholder value.

Re-Authorization of Ability to Issue Shares. In order to provide the company with additional flexibility, we also urge you to **vote FOR the Board's proposal that its authority to issue shares out of the company's authorized share capital be renewed** for an additional two-year period.

The Board's current authority will expire on May 13, 2013. While the Board currently has no plans to issue share capital under this authorization, extending this authority provides the company with additional flexibility to pursue value-enhancing opportunities in accordance with its disciplined capital allocation strategy.

Election of Highly Qualified Board-Endorsed Candidates. We are also seeking your **vote FOR the five highly qualified and diverse Transocean Director nominees**, including Frederico F. Curado, Thomas W. Cason, Steven L. Newman, Robert M. Sprague and J. Michael Talbert. Our nominees have deep, relevant expertise and a history of achievement. Conversely, we believe that the slate of candidates nominated by Carl Icahn lacks the skills and experience to add value to your board of directors. These candidates are tied to Mr. Icahn and hand-picked to pursue his unduly risky agenda.

Shareholders may also be interested in reviewing the supplemental information provided in the investor presentation and other information posted at www.transoceanvalue.com. The presentation highlights the following key points:

PROGRESS IN DELIVERING SHAREHOLDER VALUE

Transocean has made significant and tangible progress — both operationally and financially — in the wake of the April 2010 Macondo incident. Key areas of recent success include:

- Significant progress towards meeting our strategic objectives, resulting in **strong operational and financial improvements in 2012**;
- Meaningful **reduction in Macondo litigation uncertainty**; and
- **Proposed reinstatement of a dividend - at \$2.24 per share** - representing one of the industry's largest payout ratios and implied yields.

EXECUTION OF OUR SUCCESSFUL STRATEGY

Transocean's leadership team has continued to execute its well-defined strategic plan, including through the continuous improvement of operational performance and a prudent, balanced allocation of capital that will maximize shareholder value. Our ability to execute is exemplified in the following:

- **Significant fleet transformation** resulting from the divestiture of 56 non-core assets and the addition of five high-specification assets over the past two years;
- Winning the industry's **highest contracted backlog of ~\$29 billion**, including the addition of an unprecedented \$7.6 billion of backlog associated with four newbuild drillships;
- **Material improvement in revenue efficiency and utilization** resulting in increased operating cash flow; and
- **Commitment to initiatives** recently implemented to enhance operating margins and cash flow.

BALANCED CAPITAL ALLOCATION

Management and the Board are committed to maximizing long-term shareholder value by maintaining a strong, flexible balance sheet, characterized by an investment grade rating on the company's debt; disciplined, high-return investment in the business; and a sustainable return of capital to shareholders with the goal of future increases in distributions as business conditions warrant. Our balanced approach to capital allocation includes:

- A proposed \$2.24 per share dividend, or approximately \$800 million in the aggregate — a sustainable distribution representing **one of the industry's largest payout ratios and implied yields**; and
- Accelerated retirement of approximately \$1 billion of debt to facilitate continued progress towards achieving a gross debt target of \$7 billion to \$9 billion.

THE RIGHT LEADERSHIP TO EXECUTE ON OUR STRATEGIC PLAN

The offshore drilling industry is dynamic and continually presents challenges and opportunities. Reflecting the ever-changing nature of Transocean's business and the unique circumstances in which it operates, the company spends considerable time and effort evaluating the composition of its Board to ensure a panel of Directors with the experience, skills and capabilities necessary to represent the best interest of our shareholders. Our governance program includes:

- Regularly infusing **fresh perspectives** into an already extraordinarily experienced and knowledgeable Board as evidenced by the addition of six new directors in the last two years; and
- Identifying nominees with deep, relevant experience and a **history of achievement**.

DO NOT BE MISLED BY CARL ICAHN'S MISGUIDED AGENDA

We understand that Carl Icahn may shortly be soliciting your vote on a Gold proxy card. We urge you to NOT return any Gold proxy card Mr. Icahn may provide you and instead to return a **WHITE** proxy card voting in support of your Board's recommendations. Please consider the following:

- **Mr. Icahn's dividend proposal is in direct conflict with Transocean's disciplined capital allocation strategy.** We believe it is unduly risky, and would adversely affect the company's ability to operate and compete effectively in a cyclical and capital-intensive industry.
- Mr. Icahn's misguided agenda **highlights his lack of drilling industry expertise.** We believe that his superficial analysis is evidenced by his demand for an unreasonable 85% payout ratio, which completely ignores the dynamics of the cyclical offshore drilling industry and fails to recognize the distinct competitive advantage afforded by financial flexibility and an investment grade credit rating. **Transocean's proposed dividend is already well in excess of the average implied dividend yields and payout ratios of other oilfield services companies.**

-
- Moreover, **we believe that Carl Icahn's board candidates would bring no value to the company.** They all have significant ties to Mr. Icahn, through current and past associations and were handpicked to pursue his misguided agenda. Mr. Icahn's nominees reflect his lack of drilling industry knowledge. Among other weaknesses, they have limited international exposure or knowledge of the company's key growth markets; have rarely worked in a service-oriented or capital-intensive industry; possess limited knowledge of the specialized operator - contractor business model; and have little apparent experience with complex international tax treaties and networks.

Your Board does not believe that Mr. Icahn has your best interests at heart. We urge you to protect the future of your investment in Transocean by voting on the company's **WHITE** proxy card today in support of your Board's recommendations.

On behalf of Transocean's Board of Directors and management team, we thank you for your continued support.

Sincerely,

J. Michael Talbert
Chairman

Steven L. Newman
President and Chief Executive Officer
